Cabinet endorses Mr Matsemela Moloi as Registrar of the Road Traffic Infringement Agency

The Board of the Road Traffic Infringement Agency (RTIA) is pleased to announce the confirmation of Mr Matsemela Moloi as Registrar and Chief Executive Officer of the RTIA, effective 01 March 2023.

Moloi has been serving as acting Registrar since 28 February 2022 when he was seconded from the Road Traffic Management Corporation (RTMC) to guide the Agency on the road to good governance and accountability.

He is now tasked with providing the much needed stability to the Agency in order to achieve its core mandate of enhanced road safety through the implementation of the AARTO Act which aims to discourage the contravention of road traffic laws and foster voluntary compliance.

Mr Moloi has extensive experience and has held several senior government positions and is well-versed in the public sector, traffic management, and the transportation industry. He served as Executive Mayor and also held management positions at the Provincial and National level. He holds several diplomas and degrees, including an MA and an MBA.

During his career, Mr Moloi has dedicated himself to serve his community and the country. A recognised leader, his broad experience in management and in particular in road safety, are some of the qualities that made it clear that he has what is needed by the RTIA at this moment in time.

"In his tenure as Acting Registrar, we have come to appreciate his dedication to creating an environment of accountability, transparency, and growth. We are gratified to have him onboard on a permanent basis, and look forward to a successful term and fruitful working relationship," said RTIA Board Chairperson Bongekile Zulu.
